Simpson's Beverage's products are developed in good faith that they will remain stable once in ready to drink format following your
 manufacturing process, for a reasonable shelf life. It is however entirely your responsibility to carry out shelf life trials on finished product
 before producing commercial volumes and we cannot be held liable for product failure where stress testing has not taken place and the
 product has not remained in its desired state for a reasonable shelf life. At Simpsons we trial the concentrates to remain in excellent condition
 for the duration of the product shelf life providing it has been kept in reasonable condition which is cool (below 18c) dry conditions, out of
 direct sunlight. Once a further process has taken place, we can no longer guarantee the product due to us having no control over any additives
 or processes made in the diluting, processing and packaging of the product.
